ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

NEW RANGE ROVER

Reflecting its unrivalled heritage, New Range Rover takes design, comfort and craftsmanship to extraordinary new heights. As striking on the outside as it is refined within, its performance and capability are peerless. Exemplary levels of comfort and technology bring you a heightened sense of effortless sophistication and a truly first-class travel experience.

INTRODUCTION

INTRODUCING NEW RANGE ROVER

SETTING NEW STANDARDS

Whether on Place du Casino, Monaco or some muddy track in Warwickshire, England, Range Rover has always been synonymous with supreme refinement, capability and distinctive design cues such as its signature floating roofline, continuous waistline and lower accent graphic.

A more spacious interior together with executive rear seating offers an exemplary level of comfort for driver and passengers.

PHEV's 'whisper-quiet' powertrain combines ultimate refinement with exceptional efficiency.

Whilst a new level of technology, including LED lighting, the Touch Pro Duo infotainment system, full colour Head-up Display and seven-mode Terrain Response with 'Comfort' mode, delivers an even more luxurious driving experience.

We haven't set out to reimagine Range Rover, we've simply made it better.

LIGHTING TECHNOLOGY

All-round exterior LED lighting is standard. Designed to last the lifetime of the vehicle, LED lights are more energy-efficient and the quality of light produced is closer to daylight conditions, so driving at night becomes less tiring. Innovative Pixel-laser LED headlights give the vehicle even greater presence. See page 45.

SUPREME ALL-TERRAIN CAPABILITY

Off-road driving is assured and precise thanks to All Wheel Drive (AWD). Electronic air suspension helps deliver an even more confident off-road experience as you can raise the vehicle by some 75mm. Such features as All Terrain Progress Control (ATPC) reaffirm your sense of composure. See pages 25-27.

COMPOSED TOWING

You can tow up to 3,500kg with consummate ease and a suite of specific technologies such as Advanced Tow Assist ensures you can drive, manoeuvre and park with the least amount of fuss. See page 50.

POWERTRAINS

From power and sheer driving pleasure to fuel economy and refinement, there is a range of engines available including petrol, diesel and plug-in hybrid: each has been optimised with Comfort and Dynamic modes to cater for all needs. All engines are equipped with Stop/Start technology and smart regenerative charging. See pages 21-23.

Features and their availability may differ by vehicle specification and market. For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your local Land Rover Retailer.

Vehicle shown is Autobiography in Byron Blue with optional features fitted (market dependent).

LUXURY ENVIRONMENT

With a sublime and beautifully appointed interior, Range Rover takes luxury to even greater heights. Rear seats now have increased recline and all seats have deeper cushioning for greater comfort, whilst 10" Rear Seat Entertainment with Touchscreens ensure passengers also enjoy optimum levels of entertainment. New veneers and trim finishers further enhance the sense of unmatched refinement. See pages 13-14.

ELEGANT ALL-NEW REAR SEATING

Range Rover is fitted with 60:40 bench seating with load-through as standard. The rear Executive Class seating with a power deployable rear centre console and folding rear seats delivers exceptional five seat versatility with the ability to provide four seat comfort. Passenger comfort is further enhanced through features such as Extreme Passenger Seat Away and one touch recline. Choose Long Wheelbase to enjoy an additional 186mm rear legroom. See pages 14-17.

SEAMLESSLY INTEGRATED TECHNOLOGY

Touch Pro Duo has two 10" high-definition Touchscreens to ensure you stay connected and entertained. This is complemented by the 12.3" Interactive Driver Display with configurable touch steering wheel controls and our second generation full colour Head-up Display. See page 29.

INTELLIGENT VERSATILITY

The vehicle provides increased levels of versatility. Ample storage solutions include the new deep centre console stowage compartment, whilst the ability to fold the rear seats means it can adapt to suit your specific needs. Intelligent Seat Cargo Mode with power recline and Convenience Fold with Remote Intelligent Seat Fold allow you to make more of your vehicle. Automatic Access Height, Easy Loading and an Activity Key help ensure easy entry, exit and loading. Up to 7 x USB ports, 5 x 12V power sockets, and 2 x domestic power sockets and 4G Wi-Fi ensure you can all stay connected. See pages 46-49.

INTERIOR COMFORT AND WELLBEING

Command Driving Position ensures you enjoy a greater view of surroundings and the road ahead. Configurable Ambient Lighting and Enhanced Task Lighting complement the interior ambience while Cabin Air Ionisation provides a consistently fresh environment for all occupants. And for an even more sophisticated ride, thicker door glass and better acoustic insulation make this vehicle the quietest Range Rover ever. See pages 13 and 46.

INTRODUCING NEW RANGE ROVER PLUG-IN HYBRID ELECTRIC VEHICLE

Capability, performance and cutting-edge technologies are at the heart of every Land Rover. Taking our vehicles into the future, electric power now propels us into an exciting new era. Our first ever Plug-in Hybrid Electric Vehicle (PHEV), is driven by our most innovative powertrain yet; an advanced Ingenium petrol engine and electric motor combine to give an output of 404PS and deliver 0-100km/h (0-60mph) in 6.8 (6.4) seconds, together with CO₂ emissions from 64g/km*. With a full electric charge, it has a range of up to 51km (31 miles)*. Drivers can select from two driving modes to best suit their needs. See pages 18-21 for details.

Parallel Hybrid mode (the default driving mode) - combined petrol and electric drive. When in Parallel Hybrid mode, the driver can optimise battery charge or fuel economy by utilising two alternative charge management functions:

SAVE function - prevents the battery charge dropping below the level which has been selected

Predictive Energy Optimisation (PEO) function - by entering a destination in the Navigation system the driver enables the feature, which utilises altitude data for the route selected to intelligently switch between the electric motor and petrol engine to maximise fuel economy

EV (Electric Vehicle) mode - full electric drive.**

In addition to the benefits described above, an increasing number of major cities are introducing vehicle restrictions and charges from which drivers of PHEV vehicles could be exempt.

64G/KM CO₂ EMISSIONS*

PHEV's CO₂ emissions are from 64g/km making it our lowest emission powertrain yet. See page 18.

CABIN PRECONDITIONING

You can pre-heat or, uniquely to PHEV, pre-cool the cabin before you get into the vehicle without starting the engine, making life that bit more comfortable.

See page 19.

*Official EU test figures. For comparison purposes only. Real world figures may differ. Low fuel warning at 9 litres approximately. **Parallel Hybrid mode will be automatically re-engaged should the driver require more power and torque than is available, or the battery charge drops to an insufficient level to maintain progress.

Rear loadspace capacity is reduced on P400e models, please see page 48 for more detail.

Features and their availability may differ by vehicle specification and market. For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your local Land Rover Retailer.

Vehicle shown is Autobiography Long Wheelbase in Aruba with optional features fitted (market dependent).

51KM (31 MILES) EV RANGE*

PHEV is fully capable of managing most city commutes in full Electric Vehicle (EV) mode, with a range of up to 51km (31 miles). See page 18.

EASY OVERNIGHT CHARGING

PHEV can fully charge from a domestic electricity supply in as little as 7.5 hours† so it's ideally suited to charging at home overnight, enabling emissions free commuting for up to 51km (31 miles)*. See page 18.

CHARGING SOLUTIONS

A full charge can be achieved in as little as 2.75 hours† at home using the accessory Multi-function charging cable and a dedicated wall box or 32 amp industrial type socket. In addition, a range of charging points can be used at offices and other designated public places. See page 18.

REFINED DRIVE

Our quietest Range Rover yet, PHEV delivers a virtually silent drive in full EV mode. PHEV ensures seamless transition between the petrol engine and electric motor, delivering optimal refinement. See page 19.

NO COMPROMISE ON CAPABILITY AND PERFORMANCE

PHEV is precise and uncompromising. It is fully capable of handling off-road situations such as wading and rock crawl. Its on-road performance is equally remarkable, delivering an impressive 0-100km/h (0-60mph) in 6.8 (6.4) seconds through a combination of electric motor and petrol engine. See page 19.

INCONTROL CONNECTIVITY

With the Protect and Remote Premium features, a range of functions are available through your smartphone device, from enabling the driver to view charge status, to remote operation of the vehicle's climate systems. See page 20.

SEAMLESS DESIGN

Integrating the charging port into the front grille, provides easy connection without compromising the vehicle's iconic design. See page 18.

*Charging times will vary by market, power supply and charging solution. Please refer to landrover.com for further information.

DESIGN

EXTERIOR

With its floating roof, continuous waistline and lower accents, Range Rover's silhouette is recognised around the world. Those commanding looks have been given an even more contemporary profile. An all-new front grille signals a more prominent appearance, whilst the clamshell bonnet, formed of a single sheet of aluminium, is now smoother and longer to augment the vehicle's more formal, upright profile. The front bumper including vent finishers, side vent graphics, side accent graphics and integrated exhausts help advance the vehicle's effortless design. A choice of Atlas or Satin body-coloured side graphics, design packs and new wheel designs add further appeal, whilst striking Pixel-laser headlights (see page 45) and rear LED lights reinforce the vehicle's distinctive features.

Vehicle shown is Autobiography in Byron Blue with optional features fitted (market dependent).

Features and their availability may differ by vehicle specification and market. For full feature and option availability please refer to the online configurator or visit your local Land Rover Retailer.

INTERIOR

Sumptuously designed, Range Rover's new interior is a tranquil haven. Effortlessly comfortable, superbly appointed and finished with a forensic eye for the details, every facet of the interior has been designed and engineered to deliver class-leading comfort for all occupants.

Thanks to Range Rover's unique Command Driving Position, the driver continues to enjoy an enhanced view of the road ahead, but now does so in even greater comfort than before. Cosseted in premium materials such as Semi-Aniline leather, new wider seats and deeper cushioning with soft foam interlayers help create the most luxurious environment. Combined with enhanced seat functionality including upper seat shoulder support and 'Hot-Stone' massage, along with intuitive controls using the new door mounted seat control switches, the all-new interior of the Range Rover is the ultimate in refinement.

Seamlessly integrated technologies built around the Touch Pro Duo Touchscreens and Interactive Driver Display embody our design ethos; cleaner, crisper lines and fewer dials – delivering an uncluttered console that doesn't distract the driver. New veneers and luxury finishers amplify the vehicle's refined design cues, whilst enhanced Configurable Ambient Lighting with a choice of ten colours adds greatly to the overall sense of calm. Additional integrated stowage solutions including a centre console deep stowage compartment, and other features such as the front centre console refrigerator compartment confirm a purity of craft everywhere you look and touch.

No matter how far you travel in a Range Rover, you'll always arrive as refreshed as when you set out. It's not where you go, it's how you get there.

Interior shown is Autobiography in Navy/Ivory with optional features fitted (market dependent). Features and their availability may differ by vehicle specification and market. For full feature and option availability please refer to the online configurator or visit your local Land Rover Retailer.

Everyone who travels in Range Rover does so in the utmost comfort and style. Refinement is everywhere you look and in everything you touch; nothing exemplifies this better than the new rear Executive Class seating, standard on Autobiography.

As with the front, the rear also features wider seats with deeper cushioning. The rear Executive Class seats take this to another level. When lowered, a power deployable centre console with premium veneer finishers and clever stowage solutions integrates seamlessly with the two outer passenger seats, creating a luxury four seat environment. And at the touch of a button, Extreme Passenger Seat Away will adjust the front passenger seat forward to maximise the rear passenger's space and forward visibility, whilst the extended recline and integrated side cushions mean the passenger can adjust their seat into their optimum position.

Executive Class Comfort features including adjustable bolsters, upper seat shoulder support, headrest pillows and 'Hot-Stone' massage further enhance the rear passenger's journey. Whilst additional Executive Class Comfort-Plus features such as heated armrests, heated calf rest and footrest with a dedicated area to warm your feet create a truly luxurious environment.

When you require increased versatility, simply retract the power deployable centre console to reveal a centre seat for a third occupant. Or for the first time, fold your rear Executive Class seats forward to maximise your loadspace: you can do so even when you're not in the vehicle using the Remote Intelligent Seat Fold application*.

Other available features include Rear Seat Entertainment with 10" Touchscreens, Connect Pro connectivity with 4G Wi-Fi and Comfort Controller Remote app for greater control of features such as seat massage, heating and cooling, and personal climate settings. Enhanced Task Lighting is provided as standard and comes with user selectable modes, including a bright light and a warm light setting for a more relaxed environment, making Range Rover the perfect partner for your journey.

*Only available with Remote Premium.

Interior shown is Autobiography Long Wheelbase in Ebony/Vintage Tan with optional features fitted (market dependent).

Features and their availability may differ by vehicle specification and market. For full feature and option availability please refer to the online configurator or visit your local Land Rover Retailer.

Rear Executive Class seating with power deployable centre console stowed.

Rear Executive Class seating with power deployable centre console deployed.

RANGE ROVER LONG WHEELBASE

Range Rover Long Wheelbase is instantly recognisable, superbly engineered and beautifully appointed. Featuring a panoramic roof as standard, this body style is characterised by a distinctive 'L' badge mounted behind each front wheel arch. The exterior is extended by 200mm to facilitate an even more luxurious environment inside.

The definitive luxury SUV, the Range Rover Long Wheelbase has an additional 186mm of interior floorspace for even more passenger legroom and comfort.

Standard features include an added deep centre stowage compartment at the rear of the front centre console, electric rear side window sunblinds, Configurable Ambient Lighting and illuminated treadplates. With features such as Cabin Air Ionisation to improve the air quality within the cabin and Four-zone Climate Control enabling personalised temperature control through an additional climate unit, passengers in the Range Rover Long Wheelbase can create their own tranquil haven.

Select the rear Executive Class Comfort-Plus seats and not only do you get all the luxury features of the Standard Wheelbase including Extreme Passenger Seat Away, heated armrests and 'Hot-Stone' massage, you also get an additional heated calf rest – one for each side behind both driver and passenger. And as with every Range Rover, the superbly crafted space is accompanied by the discerning use of the finest materials.

In Range Rover Long Wheelbase, every last detail combines to deliver the highest levels of luxury and refinement.

PLUG-IN HYBRID ELECTRIC VEHICLE

Designed and engineered for an increasingly carbon conscious world, our first ever Plug-in Hybrid Electric Vehicle (PHEV), the P400e, delivers a dynamic driving experience with exceptional Range Rover capability both on and off-road.

P400e uses the combination of an advanced 2.0 litre 300PS Si4 Ingenium petrol engine supported by a high capacity 85kW electric motor to deliver a combined output of 404PS and CO₂ emissions from 64g/km*. The electric motor can either supply its power in parallel with the engine, or drive the vehicle in the manually selectable Electric Vehicle (EV) mode. The large 13kWh capacity battery gives the vehicle an all-electric range of up to 51km (31Miles)* from a full charge with zero CO₂ tailpipe emissions.

The P400e powertrain has been integrated seamlessly into the vehicle's design. The charging point is discreetly located in the front grille, which makes connection to a power supply both convenient and easy while lending itself to routine overnight home charging.

The battery can be fully charged in as little as 7.5 hours** using the home charging cable supplied as standard. When rapid charging, a full charge can be achieved in as little as 2.75 hours** at home using a dedicated wall box or 32 amp industrial type socket, or at a range of public charging points using a public charging cable. For charging away from home, the cable can be stored in the vehicle's loadspace using a purpose designed storage case and retention system.

*Official EU test figures. For comparison purposes only. Real world figures may differ. Low fuel warning at 9 litres approximately.

**Charging times will vary by market, power supply and charging solution. Please refer to landrover.com for further information. Rear loadspace capacity is reduced on P400e models, please see page 48 for more detail.

The P400e delivers an exceptionally refined experience. The electric motor can produce its maximum torque from standstill and delivers a virtually silent drive. If engine torque is required, the system uses the Integrated Starter Generator (ISG) for virtually instant starting, enabling engine torque to be perfectly blended with electric motor torque, smoothly delivering the driver's demand using the hybrid integrated transmission.

Off-road capabilities are uncompromised and in some circumstances enhanced. Unlike any other plug-in hybrid vehicle, P400e matches the 900mm wading depth* of Range Rover fitted with a conventional engine and the additional torque provided by the electric motor at low speed is an advantage in a variety of off-road situations.

The combination of the instant torque from the electric motor with that from the highly efficient direct injection petrol engine delivers a torque profile normally associated with large capacity petrol or diesel engines providing performance that takes it from 0-100km/h (0-60mph) in less than 6.8 (6.4) seconds with a top speed of 220km/h (137mph).

For extra convenience, the vehicle can be defrosted whilst charging and journeys can begin with the cabin pre-conditioned to a comfortable temperature. The supplementary heater and air conditioning compressor – both powered by the high voltage battery – will pre-cool or pre-warm the vehicle without the requirement to start the engine when charging, or from the battery alone if sufficient charge is available.

*Wading is only available when engine is engaged.

PLUG-IN HYBRID ELECTRIC VEHICLE

In Parallel Hybrid mode (the default driving mode), the electric motor supplies its power in parallel with the engine. There is a seamless transition between the 85kW electric motor and the Si4 Ingenium petrol engine as the system smoothly starts the engine and then blends electric motor and petrol engine power together using the hybrid integrated transmission. Intelligent battery management, which charges the battery through regenerative braking and even when the vehicle is coasting, ensures P400e always has sufficient charge to provide 404PS power output to deliver seamlessly impressive performance when required.

When in the default driving mode (Parallel Hybrid) the driver can optimise fuel economy or battery charge by utilising one of two alternative charge management functions:

SAVE function – manually selected through the Touchscreen, SAVE function prevents the battery charge dropping below the level which has been selected. This allows the driver to provision for quiet, zero-emission travel at a later point in the journey. The vehicle will only use the electric motor if the battery has received a charge over and above the saved level through regenerative braking.

Predictive Energy Optimisation (PEO) function – entering a destination in the vehicle’s navigation system will automatically engage the PEO function. By utilising altitude data for the chosen route, PEO intelligently switches between the electric motor and petrol engine to maximise fuel economy throughout the journey.

In addition to operating as a parallel hybrid, the large capacity battery enables the driver to operate the vehicle in **EV (Electric Vehicle)** mode - manually selected by a button on the console, EV mode enables the vehicle to run solely on the electric motor using the energy stored in the battery, the ideal solution for quiet, zero-emission journeys. The system will introduce the petrol engine should the driver require more power than is available through the electric motor alone, or if the battery charge drops to an insufficient level to maintain progress.

Operation of the P400e is further enhanced through specific functionality within Remote Premium (an InControl feature, see page 32). This enables the driver to use a smartphone to view key data such as charge status as well as operating the climate functions and controlling the charging time.

COMBINED PETROL ENGINE AND ELECTRIC MOTOR

POWER PS	TORQUE NM	ACCELERATION 0-100 KM/H (0-60MPH) SECONDS	TOP SPEED KM/H (MPH)	FUEL CONSUMPTION L/100KM (MPG)	CO ₂ EMISSIONS (G/KM)*
404	640	6.8 (6.4)	220 (137)	2.8 (100.9)	64

*Official EU test figures. For comparison purposes only. Real world figures may differ. Low fuel warning at 9 litres approximately.

- 1 85KW ELECTRIC MOTOR**
PHEV features a high power 85kW permanent magnet synchronous electric motor to deliver power effortlessly.
- 2 INTEGRATED HYBRID AUTOMATIC TRANSMISSION**
A seamless transition from EV to ICE is delivered via the hybrid integrated transmission.
- 3 2.0 LITRE INGENIUM ENGINE**
Developed and engineered by Jaguar Land Rover, our aluminium 2.0 litre 300PS Si4 Ingenium Petrol engine is lighter and more efficient than predecessors.
- 4 13KWH HIGH VOLTAGE BATTERY**
The large capacity battery gives the vehicle an all-electric range of up to 51km (31 miles)* from a full charge with zero CO₂ tailpipe emissions.
- 5 7KW ON-BOARD CHARGER**
The powerful 7kW on-board charger can deliver a full battery charge in as little as 2.75 hours dependent on charging station capability.
- 6 INTEGRATED STARTER GENERATOR**
The Integrated Starter Generator (ISG) delivers an exceptionally refined starting of the petrol engine when required.
- 7 REGENERATIVE BRAKING**
Regenerative braking uses the electric motor to harvest kinetic energy whilst braking, converting it to electrical energy that is used to recharge the high voltage battery.

EV SYSTEM

EV ENERGY CONSUMPTION KWH/100KM*	EV RANGE KM (MILES)*	CHARGER CAPACITY (KW)	BATTERY CAPACITY (KWH)	EV TOP SPEED KM/H (MPH)
21	51 (31)	7	13	137 (85)

The fuel economy of the P400e will vary significantly dependent on the journey length between charges from an external source. For city commuting and short journeys starting with a fully charged battery and used within its EV range, the P400e will require almost no fuel. For longer journeys, and journeys starting without a fully charged battery, fuel consumption is up to 10.9 l/100km (26mpg) with an associated range of 720 kilometres (450 miles).

ENGINES AND TRANSMISSION

From power and sheer driving pleasure to fuel economy and refinement, there is a range of engines available for Range Rover and each has been optimised for specific attributes to cater for all needs. All engines are equipped with Stop/Start technology* and smart regenerative charging (except P400e); this feature prioritises the charging of the battery when the vehicle is decelerating to capture wasted kinetic energy and reduce fuel consumption for maximum economy, especially during urban driving.

DIESEL ENGINES

TDV6

The 3.0 litre V6 Turbocharged Diesel provides 258PS and an impressive 600Nm of torque, for smooth, progressive performance.

- The switchable coolant pump improves engine warm-up by modulating coolant flow to engine demand, for improved fuel economy and emissions.
- The two-stage oil pump reduces parasitic losses by matching the flow of lubricant to engine load, increasing engine efficiency.
- Improved response due to optimised turbocharger compressor, turbine and variable nozzle designs. Turbo bearings ceramic ball-races to further improve friction and reduced turbo lag.
- An eight-nozzle fuel injector design ensures perfect atomisation of the fuel injected, optimising combustion for power and emissions while keeping fuel consumption and CO₂ emissions to a minimum.
- All TDV6 variants are equipped with Stop/Start for maximum economy, especially during urban driving.

SDV8

The 4.4 litre V8 Twin Turbocharged Diesel offers top of the range performance: with 339PS and a staggering 740Nm of torque between 1,750-2,250rpm.

- Helical and tangential inlet ports for low speed swirl and high gas flow, with combustion chambers optimised for emissions performance.
- 2000 bar common rail fuel injection with Gen 3 Piezo injectors.
- Compounded Graphitic Iron Block with optimised thin wall section and aluminium alloy heads.
- Twin overhead camshafts and four valves per cylinder.

	POWER PS	TORQUE (NM)	ACCELERATION 0-100 KM/H (0-60 MPH) SECONDS	TOP SPEED KM/H (MPH)	FUEL CONSUMPTION L/100KM (MPG)	CO ₂ EMISSIONS (G/KM)	CAPACITY (CC)
TDV6	258	600	8.0 (7.5)	209 (130)	6.9 (40.9)	182	2,993
SDV8	339	740	6.9 (6.5)	218 (135)	8.4 (33.6)	219	4,367

*Market dependent. **With 22" wheel.

8-SPEED AUTOMATIC TRANSMISSION

All diesel and petrol engines in Range Rover are coupled with an 8-speed Automatic Transmission. With eight closely spaced ratios, the transmission ensures that you are always in the optimum gear, maximising fuel efficiency and acceleration. Gear changes are almost imperceptible and shift schedules intelligently adapt to your driving style.

PETROL ENGINES

V6 SUPERCHARGED PETROL

The 340 and 380PS 3.0 litre V6 Supercharged Petrol engines produce 450Nm of torque for exhilarating performance.

- Roots-type Twin Vortex System (TVS) supercharger provides linear power delivery and maximises responsiveness.
- A spray guided direct injection system carefully manages the air-fuel mixture in the combustion chamber for improved combustion, extracting more energy from the fuel injected. This results in excellent power, while improving fuel economy and reducing emissions.
- The engine also features dual independent variable cam timing to vary inlet and exhaust valve operation, working alongside lightweight pistons with ultra-low friction piston rings, for increased performance and efficiency.
- A twin, contra-rotating balancer shaft system is employed to maximise refinement; resulting in an engine that delivers power smoothly.

V8 SUPERCHARGED PETROL

With 525PS and 625Nm of torque the 5.0 litre V8 Supercharged Petrol engine provides top of the range performance for ultimate refinement and driver engagement.

- The V8 has a compact and lightweight all-aluminium design, with impressively low levels of internal friction.
- The engine has been optimised around a state-of-the-art engine management system. This features high-pressure direct injection with a centrally mounted, multi-hole, spray-guided injection system.
- Fitted with a sixth generation, Twin Vortex System (TVS) supercharger, the engine offers superior thermodynamic efficiency and extremely refined noise levels. The supercharger fully utilises the additional capacity of the 5.0 litre engine, generating a torque profile that delivers outstanding levels of power in a linear and engaging manner.
- The result is an impressively powerful yet refined drivetrain that delivers on both sporting excitement and luxurious refinement whenever required.

V8 SUPERCHARGED 565PS

Exclusive to SVAutobiography Dynamic the 5.0 litre V8 Supercharged Petrol engine has been uprated to deliver 565PS and 700Nm of torque. This is enabled by a recalibration of the engine and its management system to increase maximum available boost pressure. Maximum torque is delivered at 6,000-6,500rpm. Refer to V8 Supercharged Petrol engine for full details.

	POWER (PS)	TORQUE (NM)	ACCELERATION 0-100 KM/H (0-60 MPH) SECONDS	TOP SPEED KM/H (MPH)	FUEL CONSUMPTION L/KM (MPG)	CO ₂ EMISSIONS (G/KM)	CAPACITY (CC)
V6 Supercharged	340	450	7.4 (7.1)	209 (130)	10.7 (26.4)	248	2,995
V6 Supercharged	380	450	7.3 (7.0)	209 (130)	10.7 (26.4)	248	2,995
V8 Supercharged	525	625	5.4 (5.1)	225/250** (140/155**)	12.8 (22.1)	294	5,000
V8 Supercharged	565	700	5.4 (5.1)	225/250** (140/155**)	12.8 (22.1)	294	5,000

LEGENDARY BREADTH OF CAPABILITY

The new Range Rover continues to offer outstanding capability on and off road, with permanent All Wheel Drive (AWD), twin-speed transmission, adaptive dynamics and electronic centre differential as standard, whilst Land Rover's revolutionary Terrain Response system means this capability can be harnessed by all drivers, expert and inexperienced alike. This extraordinary capability can be extended to suit individual requirements with a range of additional all-terrain technologies.

ELECTRONIC AIR SUSPENSION

A sure-footed, composed drive is completed by the latest electronic air suspension, which provides exceptional wheel articulation and poise. It changes the vehicle's height quickly, allowing crosslinking of the diagonal wheels to keep all four wheels on the ground on very uneven surfaces. Added to which, it makes loading heavy objects into the boot easier as you can lower the vehicle's rear suspension height by up to 50mm to suit your needs. These functions can be operated via the 10" Touchscreen, a button in the loadspace area or remotely via the key fob.

Range Rover has a choice of ride height settings to assist the driver and passengers of the vehicle at different stages of their journey or across various terrains; from an access height of 50mm below normal ride height, to an extended height of up to 75mm, with a further extended ride height up to an additional 80mm in more extreme off-road conditions.

The Speed Lowering system uses the electronic air suspension to reduce aerodynamic drag and fuel consumption at cruising speeds by lowering the vehicle by 15mm from normal ride height when the speed reaches 105km/h (65mph).

TWIN-SPEED TRANSFER BOX WITH ELECTRONIC CENTRE DIFFERENTIAL

An additional set of lower gears can prove invaluable in challenging conditions such as steep inclines or declines, off-road driving or when towing. The twin-speed transfer box system gives you precise speed and control in such instances. The heart of the twin-speed system is the electronic centre differential that offers a 50:50 torque split between front and rear axles with the ability to pre-emptively lock the axles before slip commences.

TERRAIN RESPONSE

When you manually select Land Rover's unique standard Terrain Response system, it sets the vehicle up optimally to match the demands of the terrain, by adapting the responses of the vehicle's engine, gearbox, differentials and chassis systems. There are seven manual Terrain Response settings: Comfort, Dynamic, Eco, Grass/Gravel/Snow, Mud and Ruts, Sand, and Rock Crawl.

TERRAIN RESPONSE 2

Our unique Terrain Response 2 system is designed to monitor driving conditions and automatically optimise driveability and traction by adapting the responses of the vehicle's engine, gearbox, centre differential and chassis systems to match the demands of the terrain. You can manually override the system should you wish.

Features and their availability may differ by vehicle specification and market. For full feature and option availability please refer to the online configurator or visit your local Land Rover Retailer.

Vehicle shown is Autobiography in Byron Blue with optional features fitted (market dependent).

ADAPTIVE DYNAMICS

Adaptive Dynamics makes the miles go by virtually unnoticed. The system monitors vehicle movements up to 500 times a second, reacting to driver or road inputs almost instantaneously to give greater control and minimise body movement ensuring a composed, flat ride. The system even senses off-road conditions, and optimises damping accordingly so driver and passengers arrive at their destination refreshed and relaxed.

ACTIVE LOCKING REAR DIFFERENTIAL

The Active Locking Rear Differential ensures the greatest level of traction in all weather conditions both on and off-road. Range Rover's permanent All Wheel Drive (AWD) and Electronic Traction Control (ETC), both fitted as standard, distribute torque to both the front and the rear wheels, and by braking the wheels independently to improve traction respectively. The addition of the Active Locking Rear Differential delivers the ultimate combination to maximise traction through limiting slip across the rear wheels.

A second multi-plate wet clutch between the rear wheels can lock almost instantly to provide full engine output torque to both wheels. This can be especially useful to deliver effortless capability in low-grip conditions such as patchy ice, wet grass or during wheel articulation off-road. It also provides maximum traction when exiting a corner, as when the inside wheel becomes unloaded due to weight transfer, the Active Locking Rear Differential increases the torque to the outside wheel.

DYNAMIC RESPONSE

Dynamic Response* improves vehicle handling through hydraulic roll control, optimising on road performance and passenger comfort, by reducing the amount of body lean during cornering. By controlling the front and rear axles independently, it can deliver increased low-speed agility, along with enhanced high-speed stability and greater steering precision.

1 SAFETY

2 ULTIMATE CAPABILITY

3 COMPOSURE

ALL TERRAIN PROGRESS CONTROL

All Terrain Progress Control (ATPC) is a state-of-the-art system that enables you to set and maintain a steady speed in challenging conditions such as slippery surfaces, including: mud, wet grass, ice, snow and dirt roads. Operating like a cruise control system, it functions at low speed between 1.8km/h and 30km/h (1mph and 18mph) enabling you to maintain full concentration on steering and finding a path through obstacles.

LOW TRACTION LAUNCH

Providing you with optimum torque control when you move off from a standstill, Low Traction Launch can be activated from the Touchscreen and enhances capability in slippery conditions like wet grass, snow and ice.

HILL DESCENT CONTROL

Land Rover's patented Hill Descent Control (HDC) is a standard feature. It assists the driver with controlled descents of difficult slopes. It does so by maintaining a constant speed and applying braking separately to each wheel.

WADE SENSING

Unique to Land Rover, this system uses ultrasonic sensors in the wing mirrors to visually and audibly alert the driver if the water approaches the vehicle's class-leading wading depth of up to 900mm. It does so by providing real-time pictorial information via the Touchscreen about its depth in relation to the vehicle and its maximum wading capability. Only available with Surround Camera System.

*Only available with V8 engines.

Vehicle shown is Autobiography in Byron Blue with optional features fitted (market dependent).

INFOTAINMENT

Delivering a wealth of information and entertainment, every Range Rover is equipped with our InControl infotainment system, Touch Pro Duo. It features intuitive and advanced integrated technologies to ensure everyone can make the most of their journey.

TOUCH PRO DUO

The 10" dual high-definition Touchscreens allow the user to view required information whilst simultaneously being able to interact with additional features, for increased flexibility and efficiency of use. For instance, you can use the navigation system in the upper screen whilst adjusting multimedia settings on the lower. Direct access to cabin and seat temperature controls are also available via the multi-function Dynamic Dials. For a truly elegant and streamlined appearance, the steering wheel also has hidden-until-lit, touch-sensitive switches as standard. One of these switches is programmable, so that it can be personalised to your preferences to accomplish a host of functions.

INTERACTIVE DRIVER DISPLAY

The 12.3" high-definition Interactive Driver Display can receive and project a vast amount of driving information, entertainment and active safety data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin sharp graphics. Features can be accessed on either the Interactive Driver Display or the Touch Pro Duo Touchscreens.

HEAD-UP DISPLAY

Without distraction or the need for you to take your eyes off the road, Head-up Display* that presents key vehicle data such as your speed, gear position and navigation directions on the windscreen. It features crystal clear full-colour graphics in high resolution, enabling you to see all driver inputs and information with ease, including phone/call status. The feature can be turned on and off dependent on driver preference.

REAR SEAT ENTERTAINMENT

The Rear Seat Entertainment system provides two 8" screens built into the rear of the front headrests or two 10" high-definition seat mounted articulating Touchscreens. It includes 'Journey Status', a navigation summary screen which displays a pop-up for the rear occupant detailing the time and distance to destination. Both systems come with a pair of WhiteFire® digital wireless headphones and HDMI, Mobile High-Definition Link (MHL) and USB connections. Passengers can also enjoy their favourite TV shows via the Digital TV feature.

*For optimal performance, solar attenuating glass may be required. Please consult your Land Rover Retailer for further information.

Features and their availability may differ by vehicle specification and market. For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your local Land Rover Retailer.

WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under licence.

CONNECTIVITY

InControl is Land Rover's suite of features that connects you to your vehicle and links you seamlessly, and securely, with the outside world. With a selection of apps, even when you're away from your vehicle, some of the InControl features stay with you making sure the Land Rover experience is more enjoyable than ever.

STANDARD FEATURES

VOICE RECOGNITION SYSTEM

So you can complete tasks without taking your eyes off the road, Range Rover offers intelligent voice recognition. For example, 'tune to 97.9' or 'call home'.

PROTECT

Land Rover Optimised Assistance – If you break down you can make a direct call to the Land Rover Assistance team by pressing the button on the overhead console or from the Assistance screen within the Premium smartphone app.

SOS Emergency Call – In a more serious incident, SOS Emergency Call will automatically connect you to the emergency response team who will notify the emergency services to your location.

Journey Tracking – This opt-in feature can automatically record your journey history including your route and mileage statistics. This information can be exported by email to use for expense reporting and can be imported to a spreadsheet.

Vehicle Status Check – Use your smartphone to remotely check current range levels, and status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

NAVIGATION PRO

Navigation Pro allows you to save your favourite places, use pinch and zoom gestures for simple map exploration and can display a choice of either 2D or 3D crystal clear map graphics. Navigation Pro functionality is further enhanced by the Connect Pro Pack.

CONNECT PRO

Connect Pro consists of Remote Premium, Pro Services with 4G Wi-Fi Hotspot and InControl Apps, and is designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey whilst remaining connected to the world.

Pro Services* include:

- **Real Time Traffic Information** – Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.
- **Online Search** – Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.
- **Planning Routes and Door-to-Door Routing** – Before setting off, use the Route Planner app or Online Search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen. Once you've parked, the Route Planner app will guide you to your destination – a true door-to-door experience which includes public transport options.

*Features within Pro Services may vary between markets. Please contact your local Land Rover Retailer for more information

As we roll out InControl, specific features described may be optional and market or powertrain dependent. Please consult your local Land Rover Retailer for availability and full terms in your country. Certain features require an appropriate SIM with a suitable data contract, which will require a further subscription after the initial term advised by your Retailer. Mobile connectivity cannot be guaranteed in all locations.

- **Share ETA** – You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, Share ETA can then send automatic updates via text messages or email, without any further action from you.
- **Satellite View** – When you want to get the context of your surroundings from overhead, simply switch to satellite view.
- **Fuel Prices** – When you're going to fill up, the Fuel Price service not only finds filling stations along your route, it also enables you to compare fuel prices so you can keep your costs down.
- **Commuter Mode** – Allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.
- **Parking Service** – As you approach your destination, you can see where parking is available. Simply tap on your preferred car park and the navigation system updates to direct you to it.
- **Online Routing** – While you're on your way to a destination the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.
- **Safety Cameras** – Alerts you to the location of accident black spots monitored by safety cameras.

REMOTE PREMIUM*

Remote Premium provides information on your vehicle and enables you to interact with it remotely. Compatible with most smartphones, Android Wear™ or Apple Watch®, this service includes:

- **Remote Lock/Unlock** – Lock or unlock your doors remotely with the click of a button. Simply press the 'lock' button on the Vehicle Security screen of the Remote Premium smartphone app to single lock the doors, arm the alarm, fold in the wing mirrors and close the windows. Press the 'unlock' button to unfold the wing mirrors, turn on the dipped headlights and cause the hazard lights to flash twice.
- **Remote Climate** – Prepare your Land Rover in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.
- **Beep/Flash** – This feature turns on your Land Rover's hazard lights, dipped headlights and sounds an audible alert to help you locate your vehicle in a crowded car park.

REMOTE PREMIUM – PHEV ENHANCEMENTS

- **Charging Status Information** – Stay continually updated with key battery function indicators including charge state, charging status, charge rate, plug state and estimated EV range.
- **Remote Control Actions** – Use your smartphone to remotely start and stop charging, manage charging tariffs and even set the maximum state of charge.

INCONTROL APPS

InControl Apps technology allows vehicle-optimised apps on your Android or Apple smartphone to be controlled through the vehicle's Touchscreen, including contacts, calendar and music player via a USB cable. You can also download third-party apps offering a vast range of services. Applications include:

- **Spotify**** – Access a library of more than 30 million songs with this seamlessly integrated app – the first true in-car, Spotify experience. Featuring all the same intuitive functionality as the Spotify smartphone app, you can search songs, stations and recommendations, create playlists and access your music in offline mode. Simply log in using your existing Spotify Free or Spotify Premium account.
- **Tile†** – Helps you find lost or misplaced items in seconds. Attach a tiny Bluetooth® tracker Tile to your keys, wallet or bag. The easy-to-use Tile app can then help you find these items should they be misplaced. The app is accessible any time through your vehicle's Touchscreen, allowing you to make sure you have everything you need with you, before you set off on your journey.

*Remote Premium contains subscription services that can be extended after the initial term advised by your Land Rover Retailer. **Only available on Apple smartphones. Not available on Android smartphones. †Requires InControl Apps. Bluetooth tracker tiles must be purchased separately. ©2016 Tile Inc. Tile and the Tile design are trademarks of Tile, Inc. ††Secure Tracker will require further subscription after the initial term as advised by your Land Rover Retailer.

The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under licence. iPhone® is a registered trademark of Apple Inc., registered in the US and other countries. Please ensure iPhone compatibility is reviewed with your local Land Rover Retailer. InControl Apps will need to be downloaded from the Apple/Play Store. Android™ is a trademark of Google Inc. Apple Watch® is a registered trademark of Apple Inc., registered in the US and other countries.

SECURE TRACKER⁺⁺

Uses tracking technology to alert you to an attempted theft, and signals your vehicle's location to the relevant authorities, for a timely recovery.

AUDIO

A vehicle's cabin is the ideal place within which to experience your personal choice of music and Range Rover has three different audio systems to bring your music to life:

MERIDIAN™ SOUND SYSTEM

Great definition, crystal clear highs and full, deep bass – delivered through the careful arrangement of 13 speakers including a dual channel subwoofer.

MERIDIAN SURROUND SOUND SYSTEM

All the fullness and clarity of a live performance delivered through an arrangement of 19 speakers including a dual channel subwoofer – seamlessly brought together using Trifield™ technology. Exclusive to Meridian, Trifield perfectly blends the centre and surround channels with left and right channels ensuring an optimum, consistent sound experience for each passenger.

MERIDIAN SIGNATURE SOUND SYSTEM

This delivers truly life-like reproduction, creating a profound, personal sound experience for every seat. World-first Trifield 3D technology takes surround sound to the next level, the Signature Sound System includes 29 speakers including a dual channel subwoofer. Incredibly authentic, the sense of cabin space is expanded to a 3D experience – rendering all the instruments, performers and venues of your favourite performances in true scale and location.

MERIDIAN™

Formed in 1977 in Cambridgeshire, England, Land Rover’s audio partner Meridian has pioneered many firsts including active speakers and the world’s first digital surround sound processor.

Meridian’s audio technology input has helped ensure that Range Rover is the most superb space within which to experience sound. Meridian Cabin Correction technology was utilised to analyse cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds.

The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.

DIGITAL SIGNAL PROCESSING

Brings all elements of the audio system together as one, for performance that would otherwise require significantly larger speakers.

MERIDIAN CABIN CORRECTION

The advanced algorithm of Meridian’s Cabin Correction tailors the sound experience to the precise acoustics of Range Rover’s interior.

MERIDIAN DIGITAL DITHER SHAPING

To maintain the quality of musical recordings, they are converted into a common digital format. Meridian Digital Dither Shaping ensures that digital signal conversions are made smoothly and seamlessly, preserving the finest details of the audio performance. The result is authentic musical conversion, evoking the emotions of the original recording.

TRIFIELD™

Exclusive to Meridian, Trifield blends the centre and surround channels seamlessly with left and right channels, delivering a consistent, concert-like experience for all occupants.

TRIFIELD 3D

Building on Meridian’s proven Trifield surround sound technology – world-first in-car Trifield 3D truly brings musical performances to life. Through the addition of dedicated height channels, the sense of cabin space is expanded to a 3D experience, for a supreme sense of scale and definition to your music.

DRIVER ASSISTANCE

MAKING DRIVING EASIER

From negotiating city traffic or the motorway, to providing additional safety for you and your passengers, there's a wealth of innovative technologies available. Whichever you choose, you'll find every single feature has been designed and engineered to heighten your enjoyment of the vehicle.

DRIVE FEATURES

Lane Departure Warning

- **Cruise Control and Speed Limiter** allows the driver to maintain the current speed of the vehicle without the need for continued use of the accelerator pedal, helping to reduce driver fatigue. The Speed Limiter will also allow the driver to pre-set a maximum specified speed which the vehicle will not exceed. Both functions can be easily turned on or off by the driver as desired.
- **Emergency Braking** can help to prevent collisions with other vehicles or pedestrians. If a potential frontal collision is detected, a warning is displayed giving you time to take action. A camera at the front of the vehicle monitors at speeds from 5 to 80km/h (3 to 50mph) for frontal collisions and 5 to 60km/h (3 to 37mph) for pedestrians. If a collision is still anticipated and you have taken no action, this system will apply the brakes to help reduce the severity of the possible impact.
- **Lane Departure Warning** can help make long journeys much safer. The system senses when your vehicle is unintentionally drifting out of your lane, and notifies you with a visual alert and a gentle vibration of the steering wheel.

Adaptive Cruise Control with Queue Assist and High-Speed Emergency Braking

- **Adaptive Cruise Control with Queue Assist and High-Speed Emergency Braking** works when you're cruising on the motorway or travelling in slow-moving traffic, to keep your vehicle a set distance from the one in front. Should the vehicle in front stop completely, your vehicle will come to a smooth halt. Once the traffic moves, simply touch the accelerator and Adaptive Cruise Control will resume following the vehicle in front. The system can be activated from 20km/h (13mph) up to motorway speeds. If a collision is unavoidable, Adaptive Cruise Control will engage High-Speed Emergency Braking to help reduce injuries and damage by automatically applying the brakes.

DRIVE PACKS

DRIVE PACK

Traffic Sign Recognition with Adaptive Speed Limiter

The Drive Pack offers a range of features that help keep you safe and informed.

The Drive Pack includes:

- **Driver Condition Monitor** detects if you're starting to feel drowsy and gives you an early warning when you need to take a break.
- **Blind Spot Monitor** alerts you to vehicles in, or quickly approaching your blind spot. When a vehicle is detected, a small warning light will illuminate in the corresponding wing mirror. If you indicate in the direction of the obstacle, the warning light will flash to highlight potential danger.
- **Traffic Sign Recognition** keeps you informed and aware on the road, by displaying speed limits and no overtaking signs in the instrument cluster, where they can easily be seen. When activated, Adaptive Speed Limiter uses Traffic Sign Recognition information to adjust your vehicle's speed accordingly.
- **The Adaptive Speed Limiter** uses data from the Traffic Sign Recognition system to automatically select speed limit. If the system detects the vehicle is above the speed limit, such as when entering a lower limit, the accelerator will be disabled allowing the vehicle to coast down to the limit. The driver can also apply the brakes to achieve this more quickly.

DRIVE PRO PACK

Blind Spot Assist

For an even more relaxed drive the Drive Pro Pack contains a wide range of driver assistance features including the Driver Condition Monitor and Traffic Sign Recognition in the Drive Pack, plus:

- **Lane Keep Assist** detects when your vehicle is unintentionally drifting out of your lane, and gently steers you back.
- **Blind Spot Assist** can help prevent collisions. If your vehicle detects another car in your blind spot when you begin to change lanes, a small warning illuminates in the corresponding wing mirror and a steering torque encourages you to guide your vehicle away from the approaching vehicle.
- **Adaptive Cruise Control with Queue Assist and High Speed Emergency Braking** – See page 36 for description.

ENJOY STRESS-FREE PARKING

Range Rover offers the most advanced technologies to deliver intuitive and easy parking solutions. Whether reversing, parallel parking or getting into or out of tight spaces, these features make life easier.

PARK FEATURES

Front and Rear Parking Aid

- **Front and Rear Parking Aid** helps make manoeuvring even easier. When you select Reverse, or choose to activate them manually, sensors located in the front and rear bumpers are triggered. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles.
- **Rear View Camera** provides improved visibility when reversing. Static lines representing the vehicle's outer perimeter and predicted path are superimposed on the rearward image, to make parking in tight spots as easy as possible. This valuable parking aid also helps when hitching a trailer.

Surround Camera System

- **Surround Camera System** uses four digital cameras discretely placed around the vehicle, providing a 360° overhead view on the Touchscreen. With the capacity to display several different views at the same time, this helps with various manoeuvres from parking by a kerb, to getting in and out of tight spaces and junctions.

PARK PACKS

PARK PACK

360° Parking Aid

The Park Pack assists you with manoeuvring in tight spaces and in urban environments, it features:

- **360° Parking Aid** gives you complete confidence when manoeuvring in tight spaces. Sensors located around the vehicle are automatically triggered when Reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen showing an overhead view of the vehicle. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles.
- **Rear Traffic Monitor** is particularly useful when reversing out of a parking bay. The system warns you of vehicles, pedestrians or other hazards, approaching from either side of your vehicle. It will alert you with both audio and visual warnings so you know what's behind you even when the view is obstructed.
- **Clear Exit Monitor** alerts rear passengers to any approaching cars, cyclists or other hazards before they leave the vehicle. As the rear seat passenger pulls the door handle to leave your vehicle, a warning light will flash on the rear door if an incoming obstacle is detected. The light will immediately go off when the door is safe to open.

PARK PRO PACK

Park Assist

The Park Pro Pack enables you to park and manoeuvre safely and securely in and out of tight spaces and into traffic that is obscured by buildings or other vehicles. It includes the 360° Parking Aid, Rear Traffic Monitor and Clear Exit Monitor in the Park Pack, plus:

- **Park Assist** makes parallel and perpendicular parking easier than ever by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle's speed with the brake and accelerator pedals. Graphics and notifications guide you through the manoeuvres. Park Assist will also steer you out of a space, taking all of the stress out of parking.

EFFICIENT TECHNOLOGIES

SUSTAINABLE BY DESIGN

Land Rover are committed to producing vehicles that use more sustainable materials, produce less waste and use fewer natural resources as part of our approach to sustainable business. Range Rover's development process has included a full life cycle assessment and has been designed to be 85 percent recyclable/re-usable and 95 percent recoverable at the end of the vehicle's life.

Our innovative design enables the use of a unique alloy in the vehicle body, made from up to 50 percent recycled aluminium derived from our closed loop manufacturing process, retaining quality and performance but delivering lower life cycle CO₂ emissions. Closed loop manufacturing means taking the scrap from the body pressings process, segregating it and re-melting it back into quality sheet aluminium at our supplier, to be used again to press out body panels, thereby reducing the need to use primary aluminium.

ENGINE MANUFACTURING CENTRE

Jaguar Land Rover's Engine Manufacturing Centre, where our Ingenium engines are developed, has been built to the highest environmental standard (BREEAM Excellent) and features the largest rooftop solar panel installation in the UK. Comprising no fewer than 22,600 individual panels, which are capable of providing up to 6.2MW. The panels have the capacity to provide up to 30 percent of the site's energy needs, which could reduce the CO₂ footprint by approximately 2,400 tonnes per year.

SMART REGENERATIVE CHARGING

Smart regenerative charging prioritises the charging of the battery when the vehicle is decelerating to capture wasted kinetic energy and reduce fuel consumption.

INTELLIGENT STOP/START SYSTEM*

To ensure the greatest possible fuel efficiency, all Range Rover powertrains incorporate low CO₂ technologies such as the advanced intelligent Stop/Start system, which improves fuel consumption by between 5 and 7 percent. The system automatically shuts down the engine at rest and starts it again as soon as you lift your foot off the brake. It features a Tandem Solenoid Starter with a dedicated secondary battery for instant restarting.

*Market dependent.

Official EU test figures. For comparison purposes only. Real world figures may differ.
Low fuel warning at 9 litres approximately.

SAFETY

SAFE AND SECURE

With its sophisticated design cues and use of materials, Range Rover provides a high degree of protection. Its all-aluminium monocoque body makes it one of the strongest vehicles of its kind. The inclusion of high strength aluminium in the body structure ensures minimum intrusion into the safety cell in the event of a collision. While the elevated Command Driving Position provides enhanced visibility in all conditions. You can see more of the road and be easily seen by other road users; providing an enhanced feeling of safety and confidence.

It has also been engineered to include a wealth of standard features not only to protect you and your passengers, but to actively help prevent accidents occurring:

Dynamic Stability Control (DSC) monitors Range Rover's dynamic behaviour, intervening to maximise vehicle stability. DSC reduces engine torque and applies braking to the appropriate wheels to correct the vehicle's direction of travel by counteracting understeer or oversteer.

Anti-lock Braking System (ABS) allows the vehicle to maintain traction with the road surface whilst braking and prevents wheels from locking – thereby retaining the vehicle's ability to steer. The system helps to shorten the braking distance.

Electronic Brake-force Distribution (EBD) automatically varies the braking force to each axle in order to minimise stopping distance, while still maintaining stability and the vehicle's ability to steer.

Electronic Traction Control (ETC) optimises traction and stability by controlling wheel spin. The ETC system reduces torque to the spinning wheel, then applies braking to the wheel, if required.

Cornering Brake Control (CBC) automatically varies the braking force to each wheel when the vehicle's brakes are applied around a corner and the limit of grip is reached. The system will prevent the vehicle's wheels from locking up and skidding in this event through varying the braking force applied to each wheel.

Roll Stability Control (RSC) is integrated with DSC to reduce the possibility of rollover, while providing agility and ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover. When risk is detected, braking is applied to the outside front wheel to reduce forces which contribute to rollover.

Emergency Brake Assist understands when you apply the brakes quickly but without the necessary force to maximise stopping performance. It therefore boosts the brake pressure through the ABS pump to ensure you stop in time.

Hazard Lights Under Braking – To help the risk of a collision, the Emergency Stop Signal system automatically activates the hazard warning lights during emergency braking.

To improve safety further for all the family, two ISOFIX points for baby/child seat restraints are fitted on each side of the rear seats and additional protection is offered by seat belt pretensioners which, in the event of a front impact, reduce forward movement. To further protect you, there is a comprehensive system of airbags including driver and passenger airbags, side curtain and thorax.

LIGHTING TECHNOLOGY

Range Rover features all-round exterior LED lighting with standard features including signature Daytime Running Lights, automatic headlights and power wash. LED lights are designed to last the lifetime of the vehicle and are more energy efficient. Also, the quality of light produced is closer to daylight conditions, so driving at night becomes less tiring.

A range of beam pattern assistance features provide maximum light while minimising the impact on other road users. The standard Premium LED headlights can be enhanced by Auto High Beam Assist which turns on the main beam and dips it when other road users are detected.

Matrix LED headlights and **Pixel LED headlights** both feature an Adaptive Front-lighting System (AFS) and also enable Advanced Driving Beam (ADB). The AFS optimises the lighting beam to suit a range of driving conditions: town, country, motorway and bad weather, while the ADB allows you to use both the high and low beam concurrently. By splitting the main beam into vertical strips, the Matrix LED headlights can cast four vertical shadows in front of a vehicle ahead to prevent dazzling without having to dip the main beam and lose the illumination.

Pixel LED headlights, with nearly three times as many LEDs than the Matrix headlights, offer our most advanced headlight technology and build on the ADB capability to ensure maximum light. By splitting the main beam pattern vertically and horizontally, they enable up to four high definition shadows to avoid dazzling multiple vehicles ahead. This headlight incorporates Bending Lights which operate at higher speeds to direct the main beam pattern according to the direction of steering.

Pixel-laser LED headlights build on the Pixel LED headlight with the addition of laser technology. The long range laser delivers five times higher luminance than standard LED lights and is particularly useful for long straight road driving. They become operational above 80km/h (50mph) and when no other external lights are detected, to produce clear sight for over half a kilometre (550m).

■ Standard □ Optional - Not Available.

Features and their availability may differ by vehicle specification and market. For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your local Land Rover Retailer.

VERSATILITY

TRULY FLEXIBLE

ELEGANT ARRIVAL

There's a raft of features to make every journey even more comfortable and enjoyable than ever. **Automatic Access Height** allows you to get in and out of the vehicle with greater ease and elegance as, when activated, this feature lowers the vehicle by as much as 50mm. Prior to leaving the vehicle, **Clear Exit Monitor** provides an alert to rear seat passengers to prevent them opening the door onto approaching obstacles. The vehicle is also available with **Soft Door Close** to provide power latching on the front and rear doors.

INTERIOR CLIMATE

To prevent the cabin from overheating in the sun and minimise demands on the air conditioning, the **auto sunblind*** closes automatically when passengers have disembarked and the doors locked. When the vehicle is re-opened the sunblind returns to the position prior to it auto-closing. The **gesture sunblind*** provides intuitive forward/backward gesture control of the blind allowing the driver to concentrate on the road ahead. The **Cabin Air Ionisation** with **Nanoe™** technology improves the air quality within the vehicle cabin, reduces allergens, viruses, airborne bacteria and associated odours. It does so by ionising particles in the air, making them attract to surfaces and thus helping to cleanse the air. **Four-zone Climate Control** can also make life more comfortable by adjusting temperature levels, direction and intensity of airflow.

*Only available with a panoramic roof.

Nanoe™ is a trademark of Panasonic Corporation.

Vehicle shown is Autobiography in Byron Blue with optional features fitted (market dependent).

Features and their availability may differ by vehicle specification and market. For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your local Land Rover Retailer.

ACTIVITY KEY

With the **Activity Key** you can enjoy your favourite activities and keep your vehicle key securely in the vehicle. For extra convenience, you can strap the Activity Key to your wrist. The wristband is robust and fully waterproof, allowing you to take part in a range of activities from horse riding to swimming. Simply touch your Activity Key on the tailgate (behind the letter R in the Range Rover script) to lock or unlock the car and deactivate or reactivate the conventional key fob.

TAILGATE

The split tailgate is distinctly Range Rover. Its electrically operated upper and lower tailgates help provide a platform for social and sporting events coupled with greater protection from the elements. **Powered gesture tailgate** allows you to open and close the tailgate from the kerb without needing to touch either the vehicle or the key fob. And as the system is compatible with towing solutions, you can still tackle demanding situations with the least amount of fuss. Access to the loadspace is enhanced with **Rear Height Adjust** which lowers the rear suspension by up to 50mm when the tailgate is opened. This creates a more natural ramp angle for ease of loading.

BENCH SEATING

INTELLIGENT SEAT CARGO MODE/CONVENIENCE FOLD

Makes life easier. **Intelligent Seat Cargo Mode**; enabling the power fold of the rear seats whilst moving the front seats forward preventing obstruction is fitted with all 60:40 bench seats power recline and load-through (ideal for long items such as skis). **Convenience Fold** available with the rear Executive Class seats only, allows you to configure the rear seats via the upper Touchscreen or an app on your smartphone*, which can be truly useful when you're returning with a clutch of shopping bags or an awkward load.

*Requires Remote Premium.

Interior shown is Autobiography in Navy/Ivory with optional features fitted (market dependent).

On P400e variants the loadspace capacity is reduced by up to 100 litres and the loadspace floor is raised by 46 mm.

REAR EXECUTIVE CLASS SEATING

POWER AND STOWAGE

With 2 x domestic power sockets, up to 5 x 12V sockets and up to 7 x USB ports located throughout the cabin, multiple electronic devices can be charged on the go. And to ensure your cabin is clutter-free, there is increased stowage space including a recess specifically for smartphones in the front centre console compartment. In addition to the front centre cooler compartment, a front centre refrigerator compartment can be specified as an alternative, to provide the luxury of cooling drinks on demand. It can accommodate up to 4 x 500ml bottles and maintain them at a temperature of 5°C, with the ability to perform a rapid cool to quickly chill your drink.

TOWING

With a towing capacity of up to 3,500kg* and by incorporating tailored technologies, Range Rover can handle the most demanding of tasks.

ELECTRICALLY DEPLOYABLE TOW BAR**

This system is deployed using a convenient button in the loadspace compartment, or via the Touchscreen.

TOW HITCH ASSIST

Tow Hitch Assist makes coupling a trailer to the vehicle much easier by helping you visualise the hitching process; it displays the predicted path of the vehicle tow ball towards the trailer tow bar on the Touchscreen. Standard with Rear View Camera.

REAR HEIGHT ADJUST

Rear Height Adjust allows the use of switches in the loadspace or on the key fob to lower the rear suspension height by up to 50mm – useful when loading or unloading cumbersome items, or when hitching, unhitching or loading a trailer.

TOW ASSIST

Tow Assist helps with reversing by predicting the trailer's direction. The system displays the predicted path of both the vehicle and the trailer as coloured trajectory lines on the Touchscreen. For precise guidelines you can even choose your trailer's width. Standard with Surround Camera System.

ADVANCED TOW ASSIST

Advanced Tow Assist allows you to control the direction of your trailer when reversing by using the rotary Terrain Response 2 controller. The optional system will control the vehicle's steering to achieve the desired trailer trajectory.

TRAILER STABILITY ASSIST

Trailer Stability Assist (TSA) gives you greater stability when towing. Should TSA detect a dangerous trailer sway situation is developing, it can help you regain control by gradually reducing Range Rover's speed through lowering engine power and applying the brakes individually on each side of the vehicle to control the sway.

*2,500kg limit on P400e. **Not available on P400e.

SVAUTOBIOGRAPHY DYNAMIC

EXTERIOR

Designed and engineered by Special Vehicle Operations (SVO) – Land Rover’s centre of excellence for bespoke commissions, luxury editions and performance models – the SVAutobiography Dynamic offers the pinnacle in performance and luxury.

Designed for luxury performance, the flowing lines and contemporary design of SVAutobiography Dynamic will turn heads all over the world. With a tuned chassis, steering, exhaust and suspension, the SVAutobiography Dynamic sits 8mm lower than a standard Range Rover – its aggressive stance hinting at the power and performance contained within. Unique Graphite Atlas accents, distinctive Red Land Rover branded brake calipers and exclusive wheels add to the performance appeal of the vehicle. The SVAutobiography Dynamic provides a new level of agility and performance for the driver to enjoy.

“The distinctive exterior of Range Rover SVAutobiography Dynamic is timeless. With a powerful V8 engine at its heart, it has the performance and agility to match its dynamic appearance”.

John Edwards.
Managing Director of Special Vehicle Operations.

INTERIOR

Encapsulating luxurious comfort and style, the interior of SVAutobiography Dynamic epitomises the very best in sublime craftsmanship. Alluring to the touch, only the very finest Diamond Quilted leathers feature within the cabin. A Knurled finish to interior features including the Stop/Start button and foot pedals add to the sense of refinement. The rotary shifter, and Steel Weave Carbon Fibre front and rear door veneers reflect SVAutobiography Dynamic's distinctive personality.

Interior shown is SVAutobiography Dynamic in Ebony/Vintage Tan with Ebony/Vintage Tan seats and Steel Weave Carbon Fibre veneer with optional features fitted (market dependent).

SPECIFICATIONS

CHOOSE YOUR MODEL

Each model has a choice of engines and distinctive features. This guide will help you to select your ideal Range Rover. On the following pages you'll see the standard features for each model.

The fuel economy of the P400e will vary significantly dependent on the journey length between charges from an external source. For city commuting and short journeys starting with a fully charged battery and used within its EV range, the P400e will require almost no fuel. For longer journeys, and journeys starting without a fully charged battery, fuel consumption is up to 10.9 l/km (26mpg) with a range of 720 kilometres (450 miles).

CHOOSE YOUR EXTERIOR

SELECT YOUR ROOF

Choose from a metal roof, fixed panoramic or sliding panoramic roof, both of which enhance the sense of space in the vehicle's interior and flood it with natural light. The fixed panoramic roof provides uninterrupted views of the surrounding environment. The sliding panoramic roof opens fully to let the outside in. You can select either a body-coloured or contrast roof in Narvik Black or Indus Silver to further enhance your vehicle's exterior. Metal and panoramic roofs available with all colour finishes.

BENCH SEAT

SELECT YOUR SEAT CONFIGURATION

Bench Seat

Arrive in style. The leather seating in Range Rover is both truly comfortable and effortlessly versatile. The 60:40 configuration with load through facility is available with both a manual recline on HSE, or a powered recline on Vogue, Vogue SE and Autobiography. All bench seats include Passenger Seat Away.

The powered recline variant also provides Intelligent Seat Fold, offering the ability to fold and configure your seats from the loadspace. Seat comfort is heightened with the addition of heated and cooled* variants.

Rear Executive Class Seat

The ultimate in luxury, these seats provide exemplary levels of comfort. Featuring wider and deeper cushioning, the power deployable centre console integrates seamlessly with the two outer passenger seats creating a luxury four seat environment. If more versatility is required, simply retract the power deployable centre console to reveal a centre seat for a third occupant. Or for the first time, fold your rear Executive Class seats forward to maximise your loadspace. Featuring Extreme Passenger Seat Away and powered recline as standard, Comfort and Comfort-Plus features including 'Hot-Stone' massage and heated calf rests** create a truly luxurious environment. Available on Vogue SE, Autobiography and SVAutobiography Dynamic.

Towing Pack – Tow hitch receiver, electrically deployable tow bar, Advanced Tow Assist, full size spare wheel, Activity Key (see page 47).

LAND ROVER GEAR - ACCESSORIES

EXTERIOR

Mudflaps – Front

Mudflaps – Rear

Public Charging Cable (wallbox and public charging for P400e only)

Multi-function charging cable (P400e only).

EXTERIOR STYLING

Mirror Covers – Noble Chrome

SVO Design Pack

SVO Design Pack provides a purposeful, dynamic and stunning styling enhancement. Exterior features include a unique front bumper, rear bumper with integrated tailpipes, side vents, grille and side sill claddings.

Deployable Side Steps

These smart, practical steps make it easier to get in and out of the vehicle. Neatly stowed under the sills, the side steps automatically deploy as soon as the door is opened, or when activated by the key fob. They stow automatically when the door is closed. The side steps are sensitive to obstructions and will not deploy in off-road or low range settings. Automatic mode can be overridden to allow access to the roof when the doors are closed. The deployable side steps are compatible with front mudflaps and feature a stainless steel finish with laser etched Range Rover branding.

INTERIOR STYLING

Sill Treadplates – Personalised, Illuminated, Front, Pair

Personalised illuminated treadplates allows you to choose a personalised message using an approved set of fonts/typefaces which will be highlighted in white illumination when the doors are open.

Sill Treadplates – Illuminated, Vehicle Set

Illuminated treadplates with Range Rover script and halo surround. Rear treadplates feature illuminated halo only.

INTERIOR PROTECTION

Luggage Partition – Full Height

Designed to prevent luggage from entering the passenger compartment. Complies with ECE-17 regulation.

Loadspace Rubber Mat

Range Rover branded waterproof rubber mat protects the loadspace carpet from general dirt in the rear loadspace. Features Bright work accents to increase visual quality and match floor mats.

Loadspace Liner Tray

Semi-rigid waterproof loadspace liner tray with a raised lip on three sides to protect loadspace floor and side wall carpets from dirt or wet equipment. Features Range Rover Bright ingot branding.

Pet Pack with Mat

Contains full height luggage partition and rubber loadspace mat.

Pet Pack with Tray

Contains full height luggage partition and rigid loadspace tray.

INTERIOR FUNCTION AND TECHNOLOGY

iPhone® Connect and Charge Dock

When connected, the iPhone's media is accessible and has the ability to be controlled via the integrated infotainment/audio system.

Wireless Phone Charging Cupholder

Fits phones up to 72mm wide.

Click and Go – Base

The Click and Go range is a multi-purpose seat-back system for second row passengers. The versatile Click and Go Base fixes between the headrest mountings and further attachments can be added to hold tablets, at multiple angles, bags and shirts or jackets. Each attachment is sold separately. The base can be easily removed when not in use.

Click and Hang

This removable coat hanger allows shirts or jackets to be kept creasefree whilst transporting.

Click and Hook

Click and Play – iPad® 2 - 4

Click and Play – iPad® Air

Click and Play – iPad® Mini

Click and Play – Samsung 10,1"

Click and Work

This folding table offers the rear passengers a practical surface from which to work. It also has a cupholder and is height and angle adjustable for in-cabin comfort.

Tailgate event seating in Ebony leather

The occasional seat is hand crafted from beautiful Windsor leather with a highly durable aluminium frame. Stowed in the loadspace, these seats can be quickly and easily fitted to provide comfortable seating for two adults on the lower tailgate, when the vehicle is stationary. The seats come complete with a luxury storage bag with soft lining, which also acts as a useful protective mat to prevent the users' clothes coming into contact with the exterior vehicle surfaces when in use.

TECHNICAL DETAILS

DIMENSIONS AND CAPABILITIES

Standard Wheelbase (SWB) 2,922mm

Long Wheelbase (LWB) 3,120mm

Standard overall length 5,000mm (Long Wheelbase 5,200mm)

Standard Ride Height

With roof rails 1,836mm (LWB 1,840mm)
 With panoramic roof open 1,874mm (LWB 1,880mm)
 With telematics roof antenna 1,869mm (LWB 1,868mm)
 Access height air suspension setting will reduce each of the above by 50mm

Headroom

Maximum front headroom with panoramic roof 1,003mm
 Rear headroom 1,002mm (991mm LWB)

Legroom

Maximum front legroom 1,080mm
 Maximum rear legroom 1,020mm (LWB 1,206mm)

Loadspace Capacity*

Rear seats upright
 Height 824mm, Width 1,290mm
 Loadspace width between arches 1,120mm
 Length at floor 1,101mm
 Rear seats forward
 Height 824mm, Width 1,290mm
 Loadspace width between arches 1,120mm
 Loadspace length at floor
 Behind row 1: 1,982mm/2,073mm (SWB/LWB)
 Behind row 2: 1,090mm/1,013mm (SWB/LWB)
 Executive seat reduces length behind row 2 by 80mm
 PHEV reduces height by 46mm

Obstacle Clearance

Off-road height 296.1mm
 Standard ride height 221.1mm

Turning Circle

Kerb-to-kerb 12.3m (LWB 13.1m)
 Wall-to-wall 12.7m (LWB 13.4m)
 Turns lock-to-lock 3.03

Wading Depth

Maximum wading depth 900mm

Width 2,073mm mirrors folded
 Width 2,220mm mirrors out

Front wheel track 1,690mm

Height
 SWB 1,869mm
 LWB 1,868mm

Rear wheel track 1,683mm

	A	B	C
Ride Height			
Approach Angle	34.7°	28.3°/26.1°	29.6°
Off-road SWB/LWB			
Standard SWB/LWB	24°	20.1°/18.3°	23.5°

*Rear loadspace capacity is reduced on P400e models, please see page 48 for more details.

WORLD OF LAND ROVER

Your Land Rover has been designed and engineered to help you make more of your world. It can take you to places other vehicles simply can't reach in a style that cannot be matched. To celebrate the Land Rover lifestyle, we've put together a range of experiences, publications and Land Rover branded goods. There's a world to explore. Get out there and enjoy it.

ADVENTURE DRIVES

From the sheer exhilaration of the Arctic ice to the awe-inspiring dunes of Namibia, Land Rover Adventure Drives offer you once-in-a-lifetime experiences that bring the spirit and emotion of our vehicles to life.

Search 'Land Rover Adventure Travel' for full details.

EXPERIENCE DRIVES

Get behind the wheel of the latest Land Rovers under the expert guidance of our qualified instructors. From Taster Drives to advanced Full Day experiences, there's a wide range available at one of the expanding network of Experience Centres across the world.

Search 'Land Rover Experience' for full details.

MANUFACTURING TOURS

These behind-the-scenes tours are a unique opportunity to step inside our state-of-the-art manufacturing facilities where the latest Land Rover's are born. This combination of unrivalled craftsmanship and cutting-edge robotics can be seen at either Halewood or Solihull.

Search 'Land Rover Behind the Scenes' for full details.

BRAND PARTNERSHIPS

Integrity, courage, pride, composure and capability; these are the values Land Rover shares with its partners. Whether the International Federation of Red Cross and Red Crescent Societies (IFRC), Land Rover Ben Ainslie Racing or Virgin Galactic, each one is driven by exceptional people prepared to face extreme challenges and push their capabilities to the very limits.

Search 'Land Rover Partnerships' for full details.

ONELIFE MAGAZINE

Free twice a year for your first three years as a Land Rover owner, this award-winning magazine features the best in photography, authoritative journalism and expert insights. Onelife takes you right into the heart of exclusive experiences and extraordinary adventures, whilst keeping you up to date with the latest innovations, design and lifestyle choices.

Search 'Land Rover Featured Articles' for full details.

HUMANITARIAN PARTNERSHIPS

Since 1954, Land Rover have supported the International Federation of Red Cross and Red Crescent Societies in reaching 150 million people needing aid in 189 National Societies.

Search 'Land Rover Responsibility' for full details.

LAND ROVER COLLECTION

Our latest range of clothing and luxury leather goods is crafted with the same design excellence and attention to detail as our vehicles. We also have a collection that honours Land Rover's unique heritage and features expedition-inspired gifts and apparel.

Search 'Land Rover Collection' for full details or visit your local Land Rover Retailer.

YOUR PEACE OF MIND

CUSTOMER SERVICE

When you bring your Land Rover to us, we use cutting-edge diagnostic equipment to assess all your vehicle's mechanical and electronic systems. Our qualified Technicians use tools specifically designed for our vehicles and only fit genuine Land Rover parts and Gear accessories. A choice of service plans are available which, together with Roadside Assistance, ensures complete peace of mind.

For further details contact your local Land Rover Retailer or search 'Land Rover Ownership'.

LAND ROVER ROADSIDE ASSISTANCE

Land Rover Assistance provides assistance in motoring emergencies, from immobilisation due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, wherever you happen to be.

For further details please consult your Warranty Benefits handbook, contact your nearest Land Rover Approved Service Centre or search 'Land Rover Roadside Assistance'.

LAND ROVER FINANCIAL SERVICES

Getting the keys to your very own Land Rover has never been so simple. And it's more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control.

For further details contact your local Land Rover Retailer or search 'Land Rover Finance'.

FLEET & BUSINESS

Land Rover is dedicated to being the premium manufacturer of choice for fleets and businesses, by providing a highly attractive range of vehicles and exemplary customer service. Distinctive, capable and versatile, all Land Rover vehicles deliver low Total Cost of Ownership through strong residual values, competitive service, maintenance and repair costs, and impressive fuel economy and CO₂ emissions.

We are also committed to providing a totally customer-focused aftersales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, in the easiest and most cost-efficient way for businesses.

Search 'Land Rover Fleet and Business' for full details.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually.
